## WATER & INSTALL GUIDE

### WATER SCHEDULE

Once Per Week

\*Twice during hot weeks

Slow Trickle At Base With Hose

NO Water on Leaves

\*Sprinkler system not recommended

Water Even If It Rains

New Plants Need Consistent Watering Until Roots Are Established

### HOW LONG TO WATER

~2 MINUTES

~3 MINUTES

~5 MINUTES

~7 MINUTES

~10 MINUTES

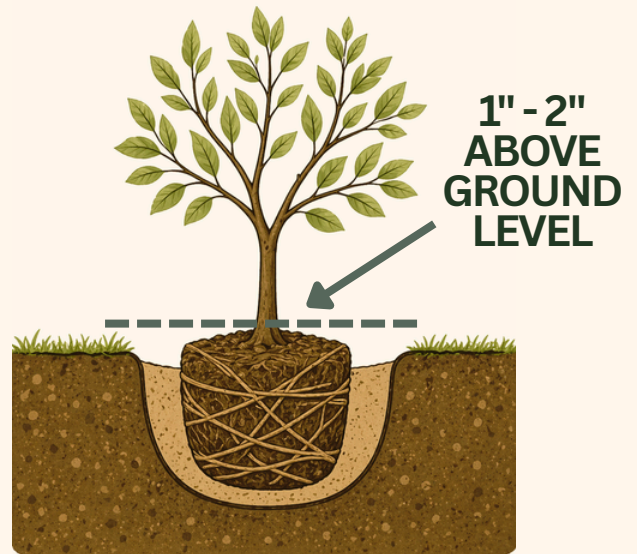

~15 MINUTES

Times based on slow trickle, adjust water pressure as needed to soak root ball

### PLANTING TIP

- NO DIRT ON STEM BASE (LIGHT MULCH ONLY)
- ROOT FLARE SLIGHTLY EXPOSED

### WATER DEEPLY

Make sure water reaches all the way through the root ball to establish strong and healthy roots!
